

# Same-Sex Parents Genogram Template: filled-in example

Same-Sex Parents Family Genogram · a fictional family drawn in GenogramAI · blank version on page 2

The completed example is a fictional family with two married mothers, Rachel and Claire, raising Oliver (b. 2014, the index person), conceived through IVF with a known sperm donor, and an adopted child. Both maternal families appear, with a close bond between each mother and her own mother, distance from one father, and a repaired cutoff.

## PERSON SYMBOLS

- Male (Square)** A square represents a male family member in standard genogram notation.
- Female (Circle)** A circle represents a female family member in standard genogram notation.

## STATUS MARKERS

- Deceased (X)** An X drawn through the symbol indicates the person is deceased.
- Index Patient (Arrow)** An arrow pointing to a person identifies them as the index patient — the individual who is the focus of the clinical assessment.

## STRUCTURAL RELATIONSHIPS

- Marriage** A solid horizontal line connecting two individuals represents a marriage or committed partnership.
- Parent-Child** A vertical line descending from a couple line to a child symbol represents a parent-child relationship.

## CHILD CONNECTION TYPES

- Biological Child** A solid vertical line from parent to child indicates a biological relationship.
- Adopted Child** A dashed vertical line with brackets indicates an adopted child.
- Stepchild** A dashed vertical line indicates a step-parent/step-child relationship.

## EMOTIONAL RELATIONSHIPS

- Close** Two parallel lines between individuals represent an emotionally close relationship.
- Distant** A dotted line represents an emotionally distant or disengaged relationship.

## MEDICAL CONDITIONS

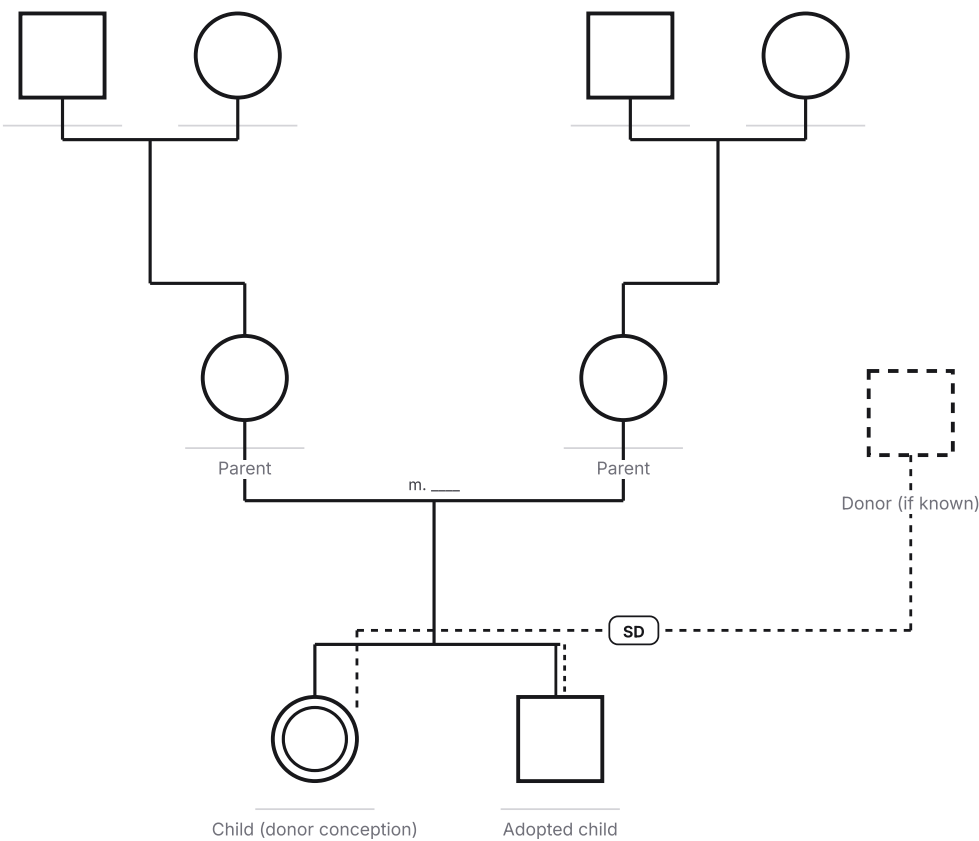

- Depressive Disorders** Shading indicates depressive conditions (major depression, dysthymia, bipolar disorder).
- Cardiovascular Conditions** Shading indicates heart disease, hypertension, stroke, or other cardiovascular conditions.
- Cancer** Shading indicates any cancer diagnosis, with specifics noted in the individual's record.
- Autoimmune Conditions** Shading indicates autoimmune disorders (lupus, rheumatoid arthritis, MS, etc.).
